

Dear Victor,

Hi, Hope you're well. Here's my testimonial –

I got my German Sheppard when she was 1 ½ yrs old. Having been raised in a kennel up to that point, she didn't have good manners or socialization skills. I took her to Victor in Feb. 2013. She learned all the basic commands and how to wait for a command before leaving the house.

The other day I realized just what a good trainer Victor is when I stopped and waited before entering my house, without my dog! Training the owner is the biggest part of the battle. Today I took her to the vet for the 1<sup>st</sup> time – I had her in the lying down command for over 15 minutes while people came in and out of the waiting room. She behaved perfectly for the entire visit. No corrections needed.

I asked Victor many, many questions. He answered each of them with suggestions that really worked. I can't praise him enough!

Donna Schindler
